Serve receive, legal under the overlap rule (FIVB rule 7.4): at the serve each front-row player is nearer the net than the back-row player behind them, and each row keeps its left-to-right order. Filled circles pass. The dashed line is where each player goes once the ball is in play.
The libero replaces the back-row middle and does not serve under FIVB rules. Some youth and school rule books differ, so check your federation's.
